Distictive art syle. Relaxing atmosphere. Reasonably challenging puzzle, block-pushing gameplay. Still has some bugs and is

probably a little too expensive for what it is. I still recommend the game, however. <https://youtu.be/rDP9WlpmCsY>. Its fun and adorable!. I really like this game, it reminds me a bit of little dew, the puzzles are deceptively simple and yet get so complicated. The Music is beautifully done and very soothing. It also plays very well on a Linux platform. When this developer makes more games I will be purchasing them, based solely on this game.. Very entertaining, colorful, and peaceful little puzzle game. The puzzles are satisfying and also challenging once you get deeper into it. This one will not give anybody nightmares or anxiety issues.. Distictive art syle. Relaxing atmosphere. Reasonably challenging puzzle, block-pushing gameplay. Still has some bugs and is probably a little too expensive for what it is. I still recommend the game, however. <https://youtu.be/rDP9WlpmCsY>. I have been playing this game for 1 week, mainly on my Twitch stream. This game is a cute puzzle game with two adorable characters. But don't be deceived - it is a challenging, scratch your head and scream in frustration at your computer screen puzzle game. As with anything that is Early Access, there are things aren't quite there but the team at Greyborn Studios are quick to respond to the community and are really passionate around the game. 100% worth picking up this game.. Tip for gamer guys: if you're looking for a game for your wife or girlfriend who "doesn't like computer games", this is a great choice! Great game! A very refreshing change from the relentless pace and mindless violence in many other games. It's a lot of fun to just relax and solve puzzles at your own pace without anyone shooting at you or some artificial time constriant. The colors, graphics, and cutscenes are very well done and really pop. It's very smooth and polished all aroundwith a cute and peaceful atmosphere. The gameplay is fun and interesting and the puzzles can be very challenging. Using two characters really adds to the potential complexity of the pouzzles. Highly recommended.. Its fun and adorable!.
